Junior Fullstack Developer

A disciplined junior full-stack developer with a master's degree in software engineering from Neoversity. I combine 25 years of experience in management roles (pharmacy manager) with modern technologies (Next.js, React, Node.js). My professional experience has taught me precision and responsibility, which I now apply to building reliable web applications and writing code. I have experience developing complex platforms, such as YogaWisdom, and working in a team.

HARD SKILLS

- HTML, CSS
- JavaScript
- TypeScript
- Python
- Ukrainian - Native
- React
- Node.js
- AWS
- DevOps CI/C
- English - Pre-Intermediate
